EDUCATION

Macalester College, Graduating May 2021 | GPA: 3.67
Computer Science Major
Mathematics and Media & Cultural Studies Minors

EXPERIENCE

Software Engineering Intern – Surescripts | MN | Jun. 2020 – Present
+ Built an Angular app using Bootstrap and Electron to create an intuitive user interface for a complex prescribing schema
+ Worked in an Agile team to improve and update services and APIs used by prescribers and pharmacies across the country
+ Learned new technologies like C# quickly and utilized them in deployed code

Preceptor (TA) - Macalester College | Jan. 2019 – May 2020
+ Helped to teach college students in two courses: object-oriented programming in Java and an intro to Python
+ Taught students one-on-one and in small groups.

Social Media Intern – Chick N Max & Fiero | May – Aug. 2019
+ Ran Facebook and Instagram accounts of two restaurant chains. Came up with creative and informative social media posts to advance on-going promotions and to further interact with customers.

SKILLS

+ **Languages:** JavaScript, TypeScript, HTML/CSS, C#, Python, Java
+ **Frameworks:** Angular, React
+ **Courses:** OOP, algorithms, computer systems, databases, software dev & testing, AI, computational linear algebra, etc.
+ **Fun Stuff:** water polo, baking, sudoku, cycling 4 fun

INDEPENDENT PROJECTS

+ **New Favorite** - Web app made with the Spotify API to create playlists of recommended songs based on listening history and filters (React, Bootstrap)
+ **Florish** - A mobile app that uses an interactive plant to discourage binge drinking (Flutter, Dart)
+ **Counterfeit Convo Creator** - Web app where users can create fake IOS-style text conversations (Angular, Bootstrap)
+ **Todos:** List-making app for which I created drag and drop functionality (React)
